Bachelor of Science in Journalism, concentrations in data, mapping and statistics August 2026
Relevant Coursework: Applied Fact Checking, Coding with Data in R, Data Journalism I & II, DataViz and Mapping, Statistics I & II

TECHNICAL SKILLS

Data & Analysis: R (tidyverse), Python, SQL, Excel/Sheets
Tools: GitHub Actions, Datawrapper, Tableau, QGIS, BeautifulSoup, Selenium, Claude Code
Web: JavaScript, HTML/CSS

EXPERIENCE

University of Florida Research Gainesville, FL
Data Management Analyst I *Aug. 2026 – Present*

- Collect, clean and validate grant data for department members, maintaining accurate records for the university's faculty and staff, creating data pipelines in Microsoft SQL Server, along with creating PowerBI reports
- Analyze research data using R to produce descriptive statistical and narrative reports for stakeholders

WUFT News, Public Media Station Gainesville, FL
Environment and Agriculture Desk Fellow *Feb. 2026 – Aug. 2026*

- Compiled and analyzed two months of audience engagement metrics to measure the reach of "Poisoned Pathways," a Pulitzer Center–funded pesticides investigation
- Built an interactive map with HTML and JavaScript, and a supporting database for "The Global Paraquat Trail," a global investigation into an agricultural herbicide

The Independent Florida Alligator Gainesville, FL
Senior News Director | Web Designer *May 2026 – Aug. 2026*

- Served as the primary editor for 21 published stories, providing holistic support to contributing reporters
- Directed updates to the website and story-tagging system so readers and staff can more easily find coverage, including adding a lacrosse section for Sports

Atlas Lab, Social Media Listening Lab Gainesville, FL
Researcher *Aug. 2025 – Dec. 2025*

- Analyzed 1,500+ political ads in Meta's Ad Library to track funding patterns and audience sentiment around federal policy debates, including a possible ban on social media app TikTok
- Cleaned and structured a large advertising dataset in R and Excel for sentiment analysis with tidytext

The Independent Florida Alligator Gainesville, FL
Metro General Assignment Reporter | Enterprise Data Reporter *May 2025 – Dec. 2025*

- Made and deployed a Python web scraper automated via GitHub Actions, eliminating hours of manual data collection for an investigation into library occupancy rates
- Compared Student Government election turnout at UF and peer universities using election results and budget records, visualized in Datawrapper
- Pitched and published 10 stories over four months for Metro, including two front-page features on public transportation issues and the local effects of federal legislation

SELECTED PROJECTS

- **Florida House of Representatives Member Directory:** Assembled a searchable SQL database of all 127 members of the Florida House (2024–26 session), filterable by party, city, education, interests and military service
- **Florida DEP Pollution Incident Dashboard:** Created an interactive dashboard of spill and contamination incidents from Florida's Pollution Notification Program, with the data stored in SQL and shown as a map, charts and county-level metrics
- **UF Bicycle Theft Analysis:** Analyzed five years of UF Police Department theft reports (559 incidents) to identify the riskiest locations, months and times of day using R (tidyverse)
